Desk terminals now made in Monterrey

This bulletin describes the changes customers will see now that desk terminals and spare parts are made in Mexico.

Serial number changed

Effective early May, the production of Millennium Desk terminals will be transferred to the Nortel factory in Monterrey, Mexico. As before, the full serial number conveys manufacturing location and date information as part of the unique terminal identifier.

the complete serial number is 10 digits long and consists of the following elements:
LLYYWWXXXX

- LL** Location Code. The location code for Monterrey is 60, the one for Calgary is 53 and the one for North York is 38.
- YY** Year of manufacture
- WW** Week of manufacture, number 01 to 52
- XXXX** Four-digit serial number ranging from 0001 to 9999.

FCC number changed

The FCC registration number for Millennium pay phones manufactured in Mexico is:
AB6MEX-23182-CC-T

Spare parts

Customer-orderable spare parts will also be shipped from Monterrey.
